

Clinical Anatomy Translational Award Winner

Tafline Arbor, Ph.D.

Marian University, COM

Did you win a Poster or Platform presentation? Poster

Title of winning presentation: Bilateral Congenital Absence of the Middle Nasal Turbinates

Your contact Email and telephone information: tarbor@marian.edu; (314) 397-1915

Your current position: Associate Professor of Anatomy

Your advisor: N/A

Your Undergraduate and previous graduate training (if any): B.A. – Wake Forest University, M.A. – Southern Illinois University, Ph.D. - Washington University – St. Louis – my background is in biological anthropology

Your hometown: Naples, Florida.

Hobbies and or Special Interests: I am passionate about exploring primate comparative anatomy, primate evolution, and modern human anatomic variation. I enjoy working with medical students to ignite their clinical interest as they complete their biomedical science training. I am also fortunate to have a husband and two children who fill my time with joy and laughter!

What would you like to see yourself doing 10 years from now? In 10 years, I envision that I will continue training students in anatomy and embryology. I also hope to be in a role in which I can assist students and junior colleagues in their advancement.
